CLAIMS 1-10 AND 11-21 ARE PENDING

1. The following is an examiner's statement of reasons for allowance:

Both the operation of sorting *into* clusters and the sorting of individual clusters were well known at the time of the invention. An example paradigm for the latter occurs in sort/merge operations. [See Wolf et al, US 5,765,146, COL 2 line 64 and after.] Sorting into clusters occurs with bin sorting, creation of histograms, and the like, and in the prior art of record for the instant claims, which are directed to the arrangement of records for graphic representation. In particular, the prior art fails to anticipate or fairly suggest: *sorting the clustered records in a predetermined order defined by a sort parameter value in the visualization set of parameters*, in the context of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
